For holding companies that have adopted ASU 2016-01, which includes provisions governing the accounting for investments in equity securities, quarterly averages for equity securities with readily determinable fair values should be based on fair value. For holding companies that have not adopted ASU 2016-01, quarterly averages for equity securities with readily determinable fair values should be based on historical cost.

3. The quarterly average for total assets should reflect securities not held for trading as follows:

a) Debt securities at amortized cost.

b) For holding companies that have adopted ASU 2016-01, equity securities with readily determinable fair values should be reported at fair value. For holding companies that have *not* adopted ASU 2016-01, equity securities with readily determinable fair values should be reported at the lower of cost or fair value.

c) For holding companies that have adopted ASU 2016-01, equity investments without readily determinable fair values should be reported at their balance sheet carrying values (i.e., fair value or, if elected, cost minus impairment, if any, plus or minus changes resulting from observable price changes). For holding companies that have *not* adopted ASU 2016-01, equity investments without readily determinable fair values should be reported at historical cost.

4. Includes interest-bearing demand deposits.
