ENDNOTES

March 31, 1998

1/ All data are on a fully consolidated basis and cover 107 U. S. banking organizations. Respondents may file information on a bank only or consolidated bank holding company basis. As most respondents file on a bank only basis, for the purpose of this report, respondent banking organizations are generally referred to as banks. Currently, six organizations comprise the group of Money Center Banks, and seven organizations comprise the category of Other Large Banks.

2/ Local country claims are claims, including revaluation gains on foreign exchange and derivative contracts, held by U.S. banks in their foreign offices on residents of the country in which the office is located. Local country liabilities are liabilities, including revaluation losses on foreign exchange and derivative contracts, to third parties held by U.S. banks in their foreign offices and payable only in those offices. Net local country claims are equal to local county loans and other claims on local residents net of local country liabilities. Local country claims and liabilities may be denominated in the local currency or another currency. In instances where the net local country claim is negative, the value is set to zero in computing Column D of Table I. For this reason, the amount reported in Table I, Column D does not necessarily equal the difference between the last two columns of Table III.

3/ The cross border claims data in all columns of Table II, and the first seven columns of Table III, cover only cross-border and non-local country lending. These result from a U.S. bank's office in one country lending to residents of another country. The data do not include revaluation gains on foreign exchange and derivative products.

4/ These columns show the amount owed to U.S. banks by borrowers residing in the given country that is guaranteed by residents of another country.

5/ Amounts owed U.S. banks by a branch in the reported country, where the head office of the borrowing bank is outside the reported country, are treated as being guaranteed and are included in this column.

6/ These columns show the amount owed to U.S. banks by borrowers residing in another country that have been guaranteed by residents of the reported country. The guarantor can be a bank, a government entity, or a private non-bank entity.

7/ Includes amounts borrowed by the foreign branches of banks headquartered in the reported country. Also includes guarantees and similar instruments issued by the reported country's banks that cover repayment of borrowing by non-residents.

The Money Center Banks include data from the following banking organizations: Bank of America, Bankers Trust, Chase Manhattan, Citicorp, First Chicago, and J.P. Morgan.

Other Large Banks include data from: BankBoston Corp, Bank of New York Co., Corestates Financial Corp, First Union Corp, Nationsbank Corp, Republic NY Corp, and State Street Corp.

The total capital of the reporting banking organizations in each group, including equity, subordinated debentures, and reserves for loan losses is all reporting banks, \$356.2 billion; money center banks, \$123.9 billion; other large banks, \$72.5 billion; and all other reporting banks, \$159.7 billion.

The total assets of the reporting banking organizations are all reporting banks, \$3,389.6 billion; money center banks, \$1,337.3 billion; other large banks, \$704.5 billion; and all other reporting banks, \$1,347.8 billion. Fluctuations in total asset data are attributable in part to the inclusion of assets of respondents that have changed their basis of reporting from bank only to fully consolidated bank holding company, or to merger and acquisition activity.

8/ Revaluation gains on foreign exchange and derivative products after netting, adjustments for guarantees, and external borrowings.
