

CENSUS FILE FOR USE WITH HMDA/CRA
2000 DEMOGRAPHICS

- File is for HMDA/CRA processing year: 2003
- Number of records: 68068
- File sequence: Metropolitan area number, FIPS state number, FIPS county code, Census tract number.
- Census tract numbers for the entire nation, Puerto Rico and four Island Areas are represented on this file.
- Census tract numbers are from the 2000 Census Demographics.
- Metropolitan area definitions are for the edit processing year indicated.
- Small counties are counties with a population of no more than 30,000. Small counties have 999999 in the census tract field and 'S' in the Small County Flag field. The individual tracts are also represented in this file for small counties and are flagged 'S'.
- If the Demographic Data Flag contains an 'X', the persons/population and/or median family income (tract level) is zero or data were suppressed by the Census bureau for reasons of confidentiality.
- Median incomes within MA boundaries are the MA Median Family Incomes. Those median incomes outside of MAs (MA=9999) are the Median Family Incomes for non-metro areas of the state.

Instructions on performing edit verifications of MA/state/county/tract combinations:

- The MA code will equal 9999 if the state/county/tract falls outside of a Metropolitan Area.
- Refer to the HMDA or CRA edits to understand the logic of verifying geographic code combinations. The edit logic for HMDA and CRA differ slightly. (The edits may be obtained by calling the HMDA Assistance Line at (202) 452-2016 or the CRA Assistance Line at (202) 872-7584. You may also request a copy via electronic mail at hmdahelp@frb.gov and crahelp@frb.gov or via Internet at www.ffiec.gov/hmda and www.ffiec.gov/cra.)

Notes:

In New England, if a tract is split between two MAs or between one or more MAs and a non-MA, the state/county/tract on this file will appear for each MA and Non-metro area. The Split Tract Flag will have an "S" for split tracts.

For HMDA purposes, it is optional for a HMDA reporter to code census tract numbers or 'NA' for small counties.

For CRA purposes, 1998 was the first year that a CRA reporter could code census tracts in any county as 'NA'. This option is used if the business or farm can only provide a Rural Route or P.O. Box for its address and the institution is not able to determine a geocode based on the information provided.

The following Island Areas were added in the 1998 file: American Samoa, Guam, Northern Mariana Island, and the Virgin Islands. These territories are not valid for HMDA purposes (use for CRA reporting only). Demographic data are not available.

None of the 163 underwater tracts (tract = 000000) are included on this file.

Record Information

2003	OMB MA	Non-Metro or MA = 9999	Total
Tracts w/o small counties	52110	14179	66289
Small Counties	98	1681	1779
Records on File	52208	15860	68068
State/County			3232
MA/State/County	937	2351	3288

Note: See Appendix for additional information.

File Content

Division of IT

System Title and Acronym:

HMDA/CRA

Descriptive File Name:

Census File Format for use with 2003 HMDA/CRA Data

Record Length:

10025

Blocksize:

30075

Element Label	Starting	Ending	Length	Type*	Comments, Values, Keys, Etc.
"As of Date"	1	4	4	N	Key field. Contains HMDA/CRA collection year, e.g. 2003.
Metropolitan Area (MA) Code	5	8	4	N	Key field. Zero-filled. Non-metro area = 9999.
FIPS State Code	9	10	2	N	Key field. Zero-filled.
FIPS County Code	11	13	3	N	Key field. Zero-filled.
Census Tract	14	19	6	N	Key field. Zero-filled. Implied decimal point, e.g., 8001.24. Field contains 999999 or valid census tract numbers.
Central City Flag	20	20	1	AN	Zero: Not central city tract. 1: A central city tract.
Small County Flag	21	21	1	AN	T: Tracted county. S: Small county.
Split Tract Flag	22	22	1	AN	N: The tract number occurs within one metropolitan area. S: The tract number split between metropolitan areas. Only occurs in New England states.
Demographic Data Flag	23	23	1	AN	X: The persons/population and/ or the median family income(tract level) is zero. D: The persons/population and the median family income(tract level) are both non-zero.
Urban/Rural Flag	24	24	1	AN	U=Urban R=Rural M=Mixed

MA Medians based on current OMB MA definitions

MA Median Family Income	25	32	8	N	Zero-filled. Calculated from SF3.P76.
MA Median Household Income	33	40	8	N	Zero-filled. Calculated from SF3.P52.
MA Median Family Income Percentage	41	46	6(2d)	N	Zero-filled, 2 decimal places with decimal point. The tract median family income as a percentage of the MA median family income.
HUD Estimated MA Median Family Income	47	54	8	N	Zero-filled, adjusted annually by HUD.
Demographics from SF1 and SF3 files:					
Persons/Population	55	62	8	N	Zero-filled. SF1.P1(1)
Families, count	63	70	8	N	Zero-filled. SF3.P76(1)
Households, count	71	78	8	N	Zero-filled. SF3.P52(1)
Female Population	79	86	8	N	Zero-filled. SF1.P12(26)
Male Population	87	94	8	N	Zero-filled. SF1.P12(2)
Minority Population	95	102	8	N	Zero-filled. Total Hispanic/Non-Hispanic population minus Non-Hispanic White alone population. Calculated: SF1.P4(1) – SF1.P4(5)

*AN – alphanumeric (character); N – numeric (zoned decimal)

September 4, 2003

Element Label	Starting	Ending	Length	Type*	Comments, Values, Keys, Etc.
Minority Percentage	103	108	6(2d)	N	Zero-filled, 2 decimal places with decimal point. The minority population as a percentage of the tract (or small county where tract = 999999) population. Calculated: [SF1.P4(1) – SF1.P4(5)]/SF1.P4(1)

Hispanic Origin by Race (SF1.P4)

Total Population Hispanic/Non-Hispanic	109	116	8	N	Zero-filled. SF1.P4(1)
Total Hispanic Population	117	124	8	N	Zero-filled. SF1.P4(2)

Non-Hispanic

Total Non-Hispanic Population	125	132	8	N	Zero-filled. SF1.P4(3)
Total Non-Hispanic Population One Race	133	140	8	N	Zero-filled. SF1.P4(4)
White	141	148	8	N	Zero-filled. SF1.P4(5)
Black or African American	149	156	8	N	Zero-filled. SF1.P4(6)
American Indian and Alaska Native	157	164	8	N	Zero-filled. SF1.P4(7)
Asian	165	172	8	N	Zero-filled. SF1.P4(8) For 2003, use combination field 'Asian or Pacific Islander'.
Native Hawaiian and Other Pacific Islander	173	180	8	N	Zero-filled. SF1.P4(9) For 2003, use combination field 'Asian or Pacific Islander'.
Some Other Race	181	188	8	N	Zero-filled. SF1.P4(10) For 2003, use combination field 'Other Race'.
Two or more Races	189	196	8	N	Zero-filled. SF1.P4(11) For 2003, use combination field 'Other Race'.
Combination Asian or Pacific Islander **For 2003	197	204	8	N	Zero-filled. Calculated: SF1.P4(8) + SF1.P4(9)
Combination Other Race ** For 2003	205	212	8	N	Zero-filled. Calculated: SF1.P4(10) + SF1.P4(11)
Total Non-Hispanic Population Two Races	213	220	8	N	Zero-filled. SF1.P4(12)
White/Black or African American	221	228	8	N	Zero-filled. SF1.P4(13)
White/American Indian and Alaska Ntv	229	236	8	N	Zero-filled. SF1.P4(14)
White/Asian	237	244	8	N	Zero-filled. SF1.P4(15)
White/ Native Hawaiian and Other Pacific Islander	245	252	8	N	Zero-filled. SF1.P4(16)
White/Some Other Race	253	260	8	N	Zero-filled. SF1.P4(17)

Urban and Rural (SF3.P5)

Total Population	261	268	8	N	Zero-filled. SF3.P5(1)
Urban	269	276	8	N	Zero-filled SF3.P5(2)
Inside urbanized areas	277	284	8	N	Zero-filled. SF3.P5(3)
Inside urban clusters	285	292	8	N	Zero-filled. SF3.P5(4)
Rural	293	300	8	N	Zero-filled. SF3.P5(5)
Farm	301	308	8	N	Zero-filled. SF3.P5(6)
Non-farm	309	316	8	N	Zero-filled. SF3.P5(7)

Household type (including living alone) by Relationship (SF3.P9)

Total Population	317	324	8	N	Zero-filled. SF3.P9(1)
In households	325	332	8	N	Zero-filled. SF3.P9(2)
In family households	333	340	8	N	Zero-filled. SF3.P9(3)

*AN – alphanumeric (character); N – numeric (zoned decimal)

APPENDIX

FFIEC Census 2000

BACKGROUND:

Each decade, the U. S. Census Bureau compiles geographic and demographic data. The Federal Reserve System takes a subset of the data and creates calculated fields where appropriate for HMDA/CRA, Fair Lending, and research use. The resulting HMDA/CRA combined file is used in many areas of the Federal Reserve System and is also made available to the public.

Data Extraction

Data were obtained from Summary File 1 and Summary File 3 DVDs ordered from the U. S. Census Bureau with the corresponding technical documents. The American Fact Finder on the U. S. Census Bureau website was used to verify both the extracted and calculated fields.

DEFINITIONS:

Metropolitan Areas

The U. S. Census Bureau designates metropolitan areas (MA) as: Metropolitan Statistical Areas (MSAs), Consolidated Metropolitan Statistical Areas (CMSAs), and Primary Metropolitan Statistical Areas (PMSAs). CMSAs are subdivided into PMSAs. Each MA is assigned a four-digit Federal Information Processing Standards (FIPS) code. HMDA and CRA use MSA and PMSA as the generic MA. All of the country except New England has MAs defined at the county level. New England MAs are defined at the place/town level.

NOTE:

- New England counties may be split between MAs since MA is defined by town/place.
- An exception to MA definition by county is Crawford County, MO. This small county is not in the MA but Sullivan City, Crawford County, MO is in the MA defined by OMB. HMDA does not recognize this exception.

An MA is a geographic entity defined by the Office of Management and Budget (OMB) for statistical use by federal agencies, based on the concept of a core area with a large population nucleus, plus adjacent communities having a high degree of economic and social integration with that core. June 2003, OMB will begin defining MAs based on Core Based Statistical Areas (CBSA). All CBSAs are to be defined by counties.

The U. S. Census Bureau's web site (www.census.gov) has more information on Metropolitan Areas.

Counties (and Statistically Equivalent Entities)

Each county and statistically equivalent entity defined by the U. S. Census Bureau, is assigned a three-digit Federal Information Processing Standards (FIPS) code that is unique within state. These codes are assigned in alphabetical order of county or county equivalent within state, except for the independent cities, which are assigned codes following the county codes.

The U. S. Census Bureau's web site (www.census.gov) has more information on counties.

Small Counties

With the 2000 Census, all counties are tracted. Small counties with no more than 30,000 inhabitants, for purposes of HMDA, are rolled up to the county level and assigned tract number 9999.99. Thus, in the HMDA/CRA combined file, a small county with 12 census tracts will have 13 tracts with the small county's MA-State-County combination: 12 census tracts and one small county tract number 9999.99.

County Exceptions

Crawford County, MO –does not define an MA, however OMB made an exception and included Sullivan City, Crawford County as being in MA 7040. HMDA Getting It Right (1998 edition) lists Sullivan City, Crawford County, MO as being in MA 7040. However, HMDA does not recognize this small county as part of MA 7040 since it was an exception to the MA definition and a small part of a small county. The only split counties recognized in the HMDA/CRA combined file are those in New England where OMB defines MA by town/place.

New England

In all cases, a small county is determined from the whole county population. If part of a small county is in an MA and part is not in an MA, the whole county is deemed to be in the MA (e.g. Grand Isle county in Vermont: State code 50 County code 013).

Broomfield County, CO

The U. S. Census Bureau does not recognize Broomfield County, Colorado as a county in the 2000 Census since it was not defined when the census was taken in April 2000. The demographic data will not be available until the 2010 Census is completed.

As of February, 2003, OMB has not released the tracts in Broomfield County. When OMB issues their June 2003 document, these tracts will be defined. For HMDA and CRA reporting in 2003, if an institution has properties located in Broomfield County, it is to report the MA/state/county/census tract combination in effect April 2000.

Tracts

Census tracts are small, relatively permanent statistical subdivisions of a county or statistically equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of decennial census data. This is the first decennial census for which the entire United States is covered by census tracts. The 1990 census had some counties with census tracts and others with Block Numbering Areas (BNAs). For Census 2000, all BNAs were replaced with census tracts, which may or may not represent the same areas.

Census tracts are identified by a four-digit basic number and a two-digit numeric suffix; for example, 6059.02 and 7099.00. In the HMDA/CRA combined file, the tract is six digits with an implied decimal point (e.g. 605902 and 709900).

The U. S. Census Bureau's web site (www.census.gov) has more information on tracts.

Special Tracts

The U. S. Census Bureau reserves the basic census tract numbers 9400.00 to 9499.00 for census tracts delineated within American Indian reservations and off-reservation trust lands that exist in multiple states or counties.

The census tract number 0000.00 identifies underwater tracts. These tracts have not been included on the HMDA/CRA combined file.

Split Tracts

There are 15 tracts, all in New England, which cross MA boundaries (meaning part of the tract is in one MA while the other part is in another MA or in a non-MA). Those tracts are as follows:

State	County	Tract	MAs
9	13	8902.00	3280, 9999
23	1	415.00	4240, 9999
23	19	8001	730, 9999
23	19	9000	730, 9999
25	1	141.00	740, 9999
25	3	9351.00	6320, 9999
25	11	408.00	8000, 9999
25	13	8130.00	8000, 9999
25	13	8138.00	9240, 9999
25	15	8226.00	8000, 9999
25	27	7022.00	2600, 9999
33	11	195.00	5350, 9999
33	11	225.00	5350, 9999
33	15	625.00	1120, 6450
50	11	110.00	1305, 9999

Flags

All flags are one-character fields that give information about a tract.

Central City Flag

In each MA, the largest place and, in some cases, one or more additional places are designated as “central cities” under the official standards. A few MAs do not have central cities. The largest central city and, in some cases, up to two additional central cities, are included in the title of the MA; there also are central cities that are not included in an MA title. The list of central cities is provided by OMB. If any part of a tract on the HMDA/CRA combined file is in a central city, the entire tract is flagged as such. The Central City Flag field has two possible values: ‘0’ indicates that it is not a central city tract and ‘1’ indicates that it is a central city tract.

Small County Flag

For HMDA purposes, the definition of a small county is a county with a total population less than or equal to 30,000. Note: for CRA purposes, the figure is 500,000. The Small County Flag is calculated on the total population of the county in which a tract lies. The Small County Flag has two possible values: ‘T’ indicates tracted county (non-small county) and ‘S’ indicates a small county.

Split Tract Flag

If a tract is split between two MAs, or between one or more MAs and a non-MA, the Split Tract Flag is set to “S” on the HMDA/CRA combined file. Otherwise the Split Tract Flag is set to “N.” These split tracts are found only in the New England states. The switch to CBSAs will eliminate split tracts, since all CBSAs will be defined by county - even in New England.

Demographic Data Flag

The Demographic Data Flag indicates the presence of demographic data. An “X” in this field indicates that persons/population and/or the tract median family income data are zero or suppressed by the U. S. Census Bureau for reasons of confidentiality. A “D” in this field indicates that the persons/population and the tract median family income are both non-zero.

Note: Demographic data are not provided for Island Areas. Different surveys were used; therefore their data will not be available until later. Only geographic codes for Island Areas are carried on the HMDA/CRA combined file at this time.

Urban/Rural Flag

Census defines Urban ‘U’/Rural ‘R’ for blocks not for tracts. A third designation of Mixed ‘M’ defines a tract containing blocks that are both urban and rural. If a tract contains blocks that are all Urban or all Rural, it is flagged as ‘U’ or ‘R’, respectively.

Medians

FFIEC calculated MA and tract Median Family Income and MA and tract Median Household Income (MFI and MHI) figures differ slightly (less than .2% on average) from

the U.S. Census Bureau's published figures. The census figures are used in the 2003 HMDA/CRA combined file to avoid questions from the public on these differences.

Calculation of Medians

Two methods are used to calculate medians in the HMDA/CRA combined file: **Pareto interpolation** and **linear interpolation**. Pareto interpolation is used to calculate income medians (median family incomes and median household incomes). Linear interpolation is used for all other types of medians such as median housing age and median person age.

The U. S. Census Bureau's web site (www.census.gov) has more information on interpolation.

Income Level Indicator

Income level indicator identifies each census tract as not available, low, moderate, middle or upper. It is determined from the tract median family income as a percentage of the MA median family income (tract median family income / MA median family income).

The codes are:

- 0 -- **Not Available:** if tract median family income = 0
- 1 -- **Low:** if tract median family income is > 0% and < 50% of the MA median family income
- 2 -- **Moderate:** if tract median family income is >= 50% and < 80% of the MA median family income
- 3 -- **Middle:** if tract median family income is >= 80% and < 120% of the MA median family income
- 4 -- **Upper:** if tract median family income is >= 120% of the MA median family income

Puerto Rico/Island Areas

Puerto Rico and the United States had identical surveys for Census 2000. Therefore, all data including minority population are available for Puerto Rico. The Island Areas had different surveys. Census does not include Island Areas on the American Fact Finder. The HMDA/CRA combined file only includes geocoding data for Island Areas -- no demographics. Therefore, the demographic flag is 'X' for Island Areas.

1-4 Unit Subtotal

The "1-4 unit subtotal" field is derived by adding up all single attached units, single detached units, 2 units, 3 or 4 units, mobile homes, and Boats, RV, vans, etc. Census defines mobile homes, boats, RVs and vans as living quarters occupied as housing units if they are considered a person's permanent residence, and are not used exclusively for recreation.

Numeric Field Width on HMDA/CRA Combined File

Eight-character field width is the standard for all numerical values in the HMDA/CRA combined file. This is justified since the largest number represented is approximately 33 million, the population of California.
